PROJECTS

IMAGE DARK MODE CONVERTER

a simple python application that converts images into a "dark mode" style by replacing white and black areas with user-defined colors. built using tkinter and pillow, it provides an easy gui for selecting and processing images.

BMI CALCULATOR

a simple and interactive body mass index (bmi) calculator. this project helps users quickly determine their bmi and understand their weight category.

TIC TAC TOE

two-player tic tac toe game. this project is a learning exercise to practice dom manipulation, event handling, and managing game logic in javascript.

SMALL LIBRARY APP

project that lets you manage a personal book library. you can add new books, delete them, and toggle their read status.

PROJECT ADMIN DASHBOARD

admin dashboard from the odin project

SIGN UP FORM

responsive sign-up form styled with css. includes basic input fields, hover effects, and mobile-friendly layout.

CALCULATOR

calculator app a responsive, feature-rich calculator web application.

ROCK-PAPER-SCISSORS

this web-based game allows you to challenge a bot in both easy and hard modes. the objective is simple: choose rock, paper, or scissors, and try to outsmart the bot.

ETCH-A-SKETCH

this is a fun and nostalgic recreation of the classic etch-a-sketch drawing toy.

SKILLS

fluent in reading, writing, speaking, and listening

Russian - C2

basic/intermediate reading, writing, speaking, and listening

Jakub Laska

I like figuring things out, solving problems, and learning by doing. Challenges push me forward, and I enjoy turning ideas into something real. Organized but flexible, I work well with others and stay open to new perspectives. I'm now looking for a chance to grow as a Junior Frontend Developer, contribute to a team, and keep building skills through real-world experience.

EXPERIENCE

11.2024 - Present

OTCF SA - Buyer Assistant

- Coordinate multiple productions simultaneously, supporting clothing and accessory lines while managing complex workflows.
- Maintain and analyze product data, purchase orders, and documentation using Excel and ERP systems to ensure accuracy and efficiency.
- Liaise with suppliers across Poland, Europe, and Asia, monitoring deliveries, quality, and logistics.
- Conduct on-site inspections at factories and suppliers to enforce production standards.
- Handle invoice processing, production settlements, and document circulation, optimizing data flow across teams.
- Collaborate with design, technology, logistics, and finance departments to improve operational processes and streamline reporting.
- Selected as internal ERP system beta tester, providing actionable feedback to enhance functionality and usability.

07.2024 - 08.2024

Leroy Merlin SA - Customer Advisor

- Assisted customers in choosing products and solutions tailored to their needs
- Provided technical guidance and product knowledge to ensure customer satisfaction
- Managed product displays, stock replenishment, and maintained department organization
- Handled sales transactions and supported cross-department cooperation when needed

03.2023 - 06.2024
